RE: Sauk Rapids, Minnesota
2026 2nd Avenue South Improvements
Project Update
SEH No. SAUKR 176402 | SP No. 191-104-008

Dear Property Owner:

The City of Sauk Rapids is nearing the start of construction of a planned roadway and municipal utility reconstruction project this summer along 2nd Avenue South between 10th Street South and Searle Street NE and adjacent streets, and along 9th Street South between the alley east of 2nd Avenue South and Lincoln Avenue. The project has been bid, and the project general contractor has been selected: C&L Excavating, Inc. of St. Joseph. A project location map is included with this notice for reference.

There has been and will continue to be considerable private utility work (by Xcel Energy natural gas and Xcel Energy electric, Charter Spectrum, and Lumen crews) leading up to and concurrently with the City project construction. C&L Excavating has advised that road work is expected to begin in June and will involve closure of roadways to through traffic to allow a safe work area for project personnel.

Additional notification and information will be provided to residents via email prior to construction starting. In the interim, if you have project related questions, please contact one of the individuals below:

Scott Hedlund
City Engineer/Project Manager
Short Elliott Hendrickson Inc.
Ph: 612.865.3509
